Why? Get **constructive feedback** and **initiate collaborations**
→ at most "devil's advocate"

How? Short presentations and plenty of time for discussion and questions in between

Policy Against Harassment at ACM Activities

Adopted by ACM Council June 21, 2018.

The open exchange of ideas is central to the Association for Computing Machinery's mission. This requires an environment that embraces diversity and provides a safe, welcoming environment for all.

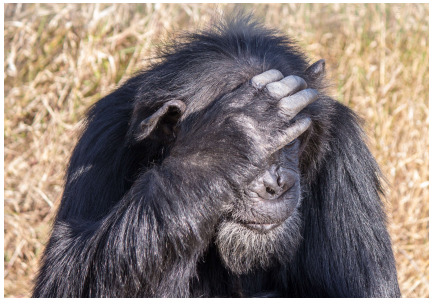

This policy **applies to all ACM activities**, including:

- conferences, symposia, workshops, and events sponsored, co-sponsored, or in cooperation with ACM any ACM SIG or Chapter or any other ACM subunit;
- ACM member meetings;
- exchanges among committees or other bodies associated with ACM activities **publications and communications sent through communication channels associated with ACM**, including social media.

Expected Behavior

We expect all participants in ACM activities to abide by this policy in all venues, including ancillary events and unofficial social gatherings:
